DETAILED ACTION

Receipt is acknowledged of the information disclosure statement and amendment filed 08/04/2004.

The rejection under the judicially created doctrine of obviousness-type double patenting over Mao et al is hereby withdrawn.

The following rejection is maintained in this action:

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 2, 15, 16, 23, and 28 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Wen et al.

Wen et al disclose a biocompatible polymer having phosphate-based linkages and one or more radiosensitizers (see introduction as well as materials and methods). The composition may have up to 25% loading level, and may be in the form of microspheres (see page 66, column 2, paragraph 3). Delivery may

Art Unit: 1615

be for a period of about 50 days (see Figure 1). The instant claims are anticipated by Wen et al.

Response to Arguments

Applicant's arguments filed 08/04/2004 have been fully considered but they are not persuasive.

Applicant argues that the Wen et al disclose each and every limitation of the claims. In particular, applicant argues that the reference does not disclose a composition which is capable of inhibiting the growth of a neoplasm upon treatment with electromagnetic radiation. However, applicant is reminded that the claims are directed to a composition and not a method. As such, applicant's argument is silent as to the aspects of the invention itself which are not taught by the reference. As such, the composition as claimed is anticipated by Wen et al.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory

Art Unit: 1615

action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Election/Restrictions

This application contains claims 29-35, 42 and 45-59 drawn to an invention nonelected with traverse in Paper No. 03042003. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claims 3-18, 20-22, 24-27, 36-41, 43,44, and 60 are objected to dependent upon a rejected base claim.

Applicant should also note, that claim 60 refers to claims "above" without referring to any specific composition claims. Correction is required.
